MARINE SAFETY INFORMATION BULLETIN (MSIB) 38-11

October 20, 2011

REPAIR WORK AT JAXPORT TALLEYRAND WHARF/ BERTH 4 ON THE ST. JOHNS RIVER

Talleyrand berth #4 is under waterside repair thru April 2012. Work is being performed periodically on the waterside bulkhead which presents the opportunity for injury and property damage from vessel wakes. It is requested that all vessels proceed with caution when transiting in the vicinity of berth #4 and buoy 75. Marine interests should contact the project manager (904) 357-3201 for additional information regarding navigation.

Facilitating commerce and access to the waterways is chief among my Captain of the Port responsibilities. Observing prudent navigational practices is necessary to enhance the safe working environment during the wharf's refurbishment.

Questions concerning this notice may be directed to U.S. Coast Guard, Sector Jacksonville, Chief, Waterways Management Division, LCDR Robert Butts (904) 564-7563.

C. A. BLOMME
Captain, U. S. Coast Guard
Captain of the Port Jacksonville, FL
